## Jewish Cemetery Waidhofen an der Thaya

### Data

### Description

This cemetery was built opposite the municipal cemetery at the end of the 19th century. The former tahara house was also used as a burial hall for the Christian cemetery for a long time. There are more than 170 graves, mainly in the form of large granite stone tombs. The cemetery, which was renovated in 2021/22 with funds from the Fund for the Restoration of the Jewish Cemeteries in Austria, is locked; the key is available from the local municipal authority.

Moritz-Schadekgasse 49, 3830 Waidhofen an der Thaya, Lower Austria | [show on map](#)
