Jewish Cemetery Großpetersdorf

Data

Description

The defunct Jewish cemetery in Großpetersdorf no longer contains any gravestones; they were looted during the Nazi period. The property was sold to the Municipality of Großpetersdorf in 1940. After 1945 a restitution settlement was reached with the Jewish Community Graz. The bodies buried there had already been exhumed and transferred to the Jewish cemetery in Oberwart prior to the settlement. A part of the former cemetery grounds has been redeveloped.
